COLLECTION

WE ARE RIDERS

ROCDAY is a brand created by riders with a true passion for bikes, mountains and trails. It's our own experience that let us build a true brand offering functional, high-end products.

Our clothes allow you to feel and look good both on and off the bike. Whether you're shredding your favorite bike park, climbing an epic mountain pass, or in a local restaurant enjoying a post-ride pizza with your crew.

We search for the perfect combination of the highest quality materials, best technical solutions, and fresh designs. We focus on details that provide the best possible performance from our clothes. We also stand for sustainable growth with respect for the environment. Our products are made to last, serve you for a long time.

We create your clothes,
you **enjoy the ride**.

rocday

SUSTAINABILITY

The cycling industry has always been connected to nature, vegetation, and soil. Every biker observes the environment around them and cares about their favorite piece of forest. As part of this community, we want to protect our favorite place to practice this sport, the green lungs of the earth. We have implemented several actions to minimize the negative impact on our home, th planet earth.

BUY BETTER FOR LONGER

Did you know that extending the life cycle of textiles by just 10% would save three million tonnes of CO² and 150 million liters of water a year? That's why our main goal is to create high-quality products that will stay with our customers for years. We strive to design and create products responsibly and sustainably with the idea of "buy better for longer". ROCDAY pays special attention to the details and quality of our clothing. We believe that a good product is the one that lasts as long as possible, that is why we are so happy to see bikers still riding in clothes from our very first collections.

RECYCLING

In our most important and largest product group – technical jetseys and t-shirts – we use only at least 50% recycled materials. Our top model's STAGE, EVO RACE and the new short sleeve jersey STAGE SHORT are made from 90% recycled materials. And that's just the beginning.

PFC FREE

Most products on the market use DWR (durable water repellent) coating which repels water and dirt and protects the user from cold and moisture. Unfortunately, standard DWR is based on polyfluorides, which have a negative impact on our planet. That's why we are proud to announce that all our new shorts and pants will be made of PVC-FREE coating, which does not contain any harmful compounds, is more technologically sustainable and eco-friendly.

Ecologi | climate
friendly
workforce

LESS PLASTIC IN PACKAGING

Starting from 2022, we are introducing a new type of packing. Moreover, all hang tags in the new collection are made of uncoated, eco-friendly paper. Additionally, product bags are made of biodegradable and compostable materials made from corn starch. By 2023 we plan to eliminate 100% of all plastic from packaging, leaving only biodegradable and environmentally friendly materials.

WE PLANT ONE TREE FOR EVERY ORDER

Forests, with their CO²-reducing properties, are our greatest ally in the fight against climate change. Moreover, as cyclists, we spend every free moment on exploring every single part of it, so it's a very important place for us and we want to keep it in the best possible condition. In 2022 we started cooperation with ECOLOGI and for every order placed on our website we plant one tree.

You can follow our actions at
<https://ecologi.com/rocday>

OFFSETTING CO² EMISSIONS

We want to take care not only of the sustainability of our products, but also of the CO² emissions of our business. In cooperation with ECOLOGI we have started to balance the carbon footprint of CO² emissions from business trips, commuting, personal travel, vacations, food, hobbies and other activities of all people creating ROCDAY. For example, we are supporting investments in renewable energy sources, capturing gases to reduce

emissions or protecting reserves and forests around the globe.

Thanks to all of these actions, in two plus years we managed to reduce emissions by **90 tons** of CO² and plant together more than **1300 trees!**

SANITIZED®

Special Swiss antimicrobial material treatment.

When you're out there pushing your limits - whether it's mountain biking, trail running, or any other sport - the last thing you want to worry about is your gear. That's where **SANITIZED®** comes in. This antibacterial treatment is applied to the fabric in all **ROCDAY** jerseys, giving you some serious benefits.

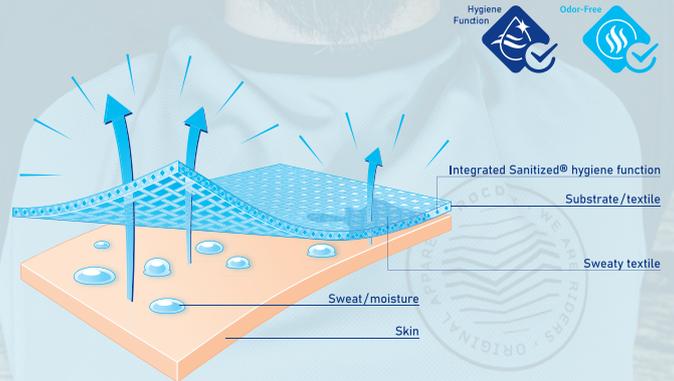

No one likes that post or mid ride stink. Thanks to **SANITIZED®**, our jerseys stays fresher for longer because it fights off odor-causing bacteria. Less funk, more focus on what really matters: shredding trails or nailing that perfect trick.

The treatment doesn't just wash out after a few rides. It's long-lasting, so your shirts will keep their antibacterial powers even after many washes. Plus, with **SANITIZED®**, you're getting next-level hygiene protection. This is important if you're the kind of person who's always in close contact with others.

Stay fresh, stay clean, stay focused. **ROCDAY jerseys** has your back, so you can keep pushing your limits without worrying about your gear.

ODOR-FREE ROCDAY JERSEYS

Long-lasting freshness thanks to the Sanitized® hygiene function

Sustainable, fresh wearing comfort . The integrated Sanitized® hygiene function prevents undesired, unpleasant bacterial odors from developing.

SHORTS & PANTS

NEW
MODEL

PRO LINE | SHORTS & PANTS × *red*

ROC V2

We redesigned our all-time bestseller for enduro, trail, and bike park riding. Created for the best performance in the mountains but also for chill walks with your dog or grabbing pizza after a ride.

- » **New, improved fit** - the same durability, more comfort, and style!
- » **Super durable fabric based on nylon yarns** - use of a special combination of nylon and polyester fibers provides high fabric durability to prevent damage
- » **PFCs free, ecofriendly DWR coating** – these shorts won't absorb water easily yet remain breathable, even during rides in tough conditions.
- » Waist adjustment with 2 Velcro straps. Thanks to the big Velcro surface, straps won't detach even after many hours of riding.
- » Extended shorts leg profile, designed for riding with or without knee protectors
- » Hem adjusters – adjustable to fit knee protector or grip your leg while riding on colder days
- » Deep pockets with waterproof zippers. Pedal friendly pocket keeps your items closer to your outer leg
- » Hook for drying or hanging shorts

colors: ■ black ■ blue ■ grey

sizes: XS – XXL

ECO DWR COATING

Special eco-friendly DWR treatment created with bio-based materials, for healthy and effective water repellency.

COLOR**

SILVER IONS

Silver ions inhibit the growth of bacteria, reduce odors, keep a biological balance and enhance all-day freshness for superior performance and wearing comfort

NEW
MODEL

TIMBER MERINO

SOCKS × roday

MTB socks designed for trail shredders for riding in colder conditions. Combining the best technical fabrics with natural Merino Wool provides excellent trail comfort, especially during fall-to-spring rides. Merino Wool has natural wicking and odor-resistant function to keep your feet fresh all day.

- » Merino Wool
- » Higher thickness, designed for all-year riding
- » Special "Y" shaped heel to prevent slipping off
- » Compression arch elastic band
- » Smooth flat toe construction
- » Warm and breathable!

colors: ▪ *melange-black* ▪ *melange-red* ▪ *melange-yellow*
sizes: XS/S, S/M, M/L, L/XL

MERINO WOOL

Merino Wool has natural wicking and odor-resistant function to keep your feet fresh and comfortable all day.

TRAIL

SOCKS × *rockday*

MTB socks designed for trail shredders! The combination of the best technical fabrics provides excellent comfort on the trails during all-day rides.

- » **NEW longer shape**
- » Highly breathable mesh zones for extra ventilation
- » Special "Y" shaped heel to prevent slipping of
- » Compression arch elastic band.
- » Smooth flat toe construction.
- » Elastic, soft and very comfortable.

ACCESSORIES

NEW
MODEL

WATER BOTTLE

ACCESSORIES × *rocday*

Hydration is very important, especially on mtb trips, where you are often far from access to water. Bottle is designed to provide maximum comfort. The robust cap will ensure that water does not spill over even on the bumpiest trails. The silicon push offers a pleasant sensation while drinking. Bottle made of bpa-free safe material.

- » Good grip shape
- » **BPA free** – no Bisphenol-A, phtalates or other toxins used
- » Soft valve
- » Odorless material – the polypropylene material keeps water clean and pure.
- » Pro-Cap system – double-closure system for 100% watertight transport.
- » Soft push – for a pleasant sensation while drinking
- » Grip ring – over-moulded cover for better grip on the bottle.
- » Valves and push made with food-grade silicon
- » Dishwasher safe

colors: ■ *clear* ■ *smoke*

sizes: ■ *650ml*

BPA free
no Bisphenol-A, phtalates or other toxins used

FRAME STRAP

ACCESSORIES × *roday*

A super lightweight carrier strap that guarantees you never shred trails without an inner tube, tools, and other essentials. Simple and easy to use. Thanks to the anti-slip material strap will be gentle for your paint on the frame and will remain in one place.

- » **YKK** frame buckle
- » Additional anti-slip material
- » Large and strong Velcro
- » Available in four different colors
- » Sewn-in logo
